

Invitation to virtual test conference on 2nd March

We are pleased to inform you about the opportunity to take part at the virtual conference from Siemens about testing solutions and chances for your business. The conference takes place on **2nd March 2021** and is about:

TESTING IN THE DIGITAL AGE - AUTOMOTIVE, TRANSPORTATION & HEAVY EQUIPMENT

9:30	10:00	Keynote: The role of testing in the digital revolution
10:00	10:30	Assess vehicle NVH performance without a physical prototype thanks to virtual prototype assembly
10:30	11:00	Component-based TPA: Creating invariant components to allow full system level performance prediction
11:15	11:45	How Active Sound Design (ASD) will infuse your electric vehicle with driving emotion
11:45	12:15	Model-based System Testing: Embed simulation within testing for model-based development
13:15	13:45	Deploy accurate and cost-effective durability testing in extreme environments
13:45	14:15	From Chip to City: An integrated test and simulation framework in support of autonomous driving
14:30	15:00	How to handle powertrain and drivetrain rightsizing and electrification challenges
15:00	15:30	Moving towards zero defect production by implementing NVH-based quality testing techniques
15:30	16:00	Conference closing

You could register at: <http://www.testing-in-the-digital-age.siemens-events.com/signup/landing>

If you have any further questions, feel free to contact me via mail at raimund.geringer@acam.at or under the phone number **+43 (0) 3842 82690-61**.
