Realizing the business value of cloud-based SaaS PLM

siemens.com/software

Benefits of product lifecycle management (PLM) software delivered as a service

Top two reasons businesses choose software as a service (SaaS):

Improved business agility

Increased information technology (IT) or cloud resiliency

Source: Forrester Research, Quantifying the Business Value of SaaS

SaaS provides superior data security and protection

// When a company uses a SaaS PLM solution, data security is the responsibility of the solution provider and its cloud partner...As a result, the likelihood of data theft and product development-crippling malware is much less than with on-premises PLM.

Source: Lifecycle Insights, The Business Case for Cloud-Based SaaS PLM

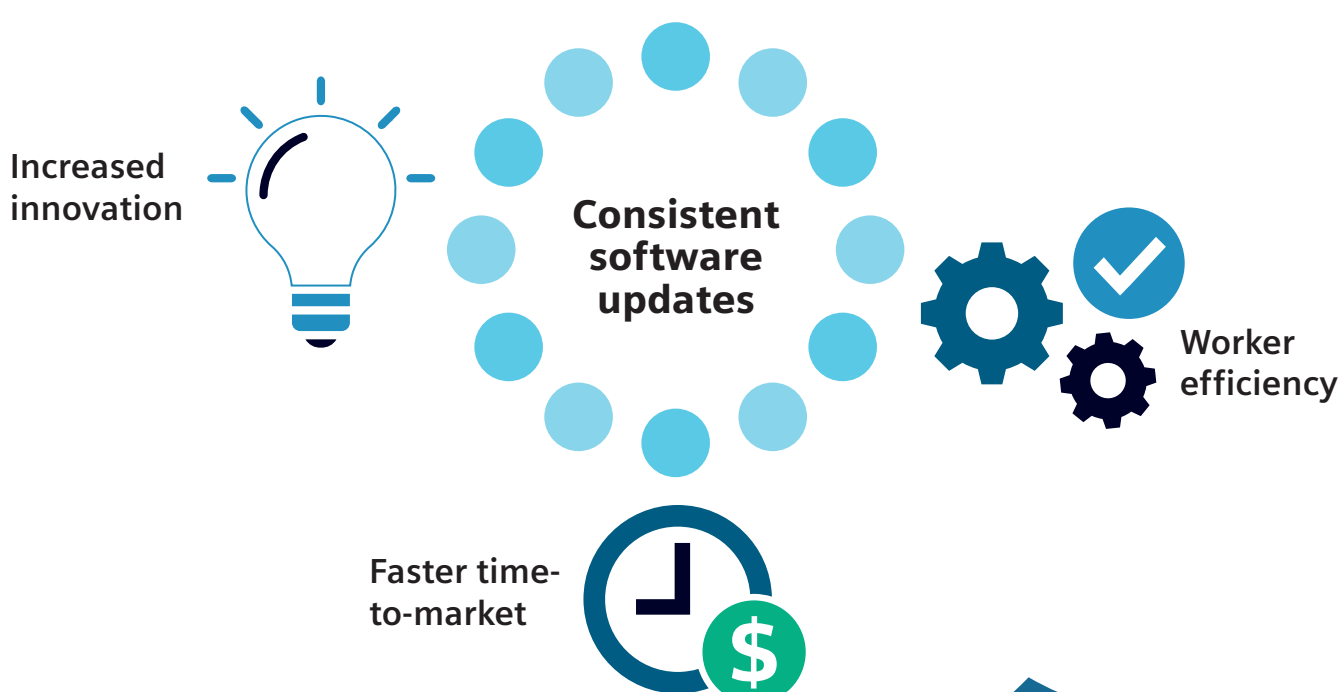

SaaS typically beats on-premises on overall business value

// ROI (return on investment) shows that SaaS is a good bet for long-term value.

Source: Forrester report, Quantifying the Business Value of SaaS

ROI example: SaaS delivers consistent software updates

The solution

Teamcenter X is a SaaS PLM on the cloud, operated by Siemens.
